

NFT 1200 Farmers Market Bundle

Overview

Using the Nutrient Film Technique (NFT), the NFT 1200 System is designed for farmers market growers who are just getting started with hydroponics or taking a step to the next level. If you are ready to experience the future of hydroponics, this is the system for you. This system is ideal for growing: basil, cilantro, parsley, arugula, watercress, fancy lettuce, head lettuce, bok choy, mizuna, and more. The NFT 1200 Farmers Market Bundle comes complete with EVERYTHING you need to get started.

Bundle Includes:

1,152 plant site NFT system. Pro Grower Subscription (3 months worth medium and nutrient). IntelliDose System with peristaltic pumps. Get Seeding 3-Tray Propagation System with Bottom Heat Package and required lighting.

Features

- All components have been constructed or chosen to enhance their efficiency, energy usage, water usage, and longevity.
- The GroClean NFT channels help conserve natural resources and reduce carbon dioxide emissions with their construction of FDA-approved HDPE plastic.
- The IntelliDose nutrient controller is key to nutrient and water conservation. This eliminates hand dosing altogether and keeps a watchful eye on nutrient and pH levels. It adjusts levels on-demand so you don't have to. Unit is PC compatible.
- NFT 1200 System measures 12 feet by 20 feet. The Get Seeding 3-Tray Propagation System that comes with the system measures 4 feet by 3.5 feet.

Quantity Description

Hydroponics NFT 1200 Kit:

GroClean NFT Channel Kit:	32	Gro Clean NFT Channel (12' Finishing Sections - HDPE)
	8	Gro Clean NFT Channel (12' Nursery Sections - HDPE)
Table Frames/Benching Kit:	2	10' Custom Table Frames
Collectors	2	10' Covered Collector
ManifoldsF	2	10' Finishing Manifolds
Pumps	1	32hyper flow pump
Reservoir	1	150gal Reservoir Modified
Plumbing	1	Return & Feed Plumbing-Assembled
Nutrient/H2O Control Kit:	1	Nutrient Controller w/Three SD- Peristaltic Pumps
	1	Handheld EC/pH meter
Propagation Kit:	1	Get Seeding 3 Tray Propagation system w/bottom heat package
	1	Lighting for propagation
Other Important Items Kit:	1	Hydroponic Salad Production Book
	1	Stock Tank Kit 5gal with 1gal Acid Tank
	1	Channel Scrub Brush and handle
	1	Float Valve & Plumb Kit
	40	End Cap Channel
	1	Custom Pallet
AmHydro Services	1	Annual Grower Support
	1	Packing and Freight to customer
	2	Tee-Shirts
Pro Grower Subscription (3 months)	10	Basil Bags 50 pack
	500	Lettuce Bags 6in Gusset
	1	Ph Control Kit
	2	Seeds Arugula-Eruca Sativa .25 lb.
	1	Seeds Kale/Chard .25 lb.
	2	Seeds Basil-Genovese .25lb
	1	Seeds Lettuce-Executive Selection pack
	1	Oasis LC-1 #5225 case
	3	Nutrients Tasman Bay 8kg
	2	pH Down 10% 1 gal
	3	Water Testing

IntelliDose Controller

IntelliDose Controller with Peristaltic Pumps

This controller will dose three parts, nutrient A, nutrient B and pH adjuster. Using the commercial peristaltic pumps, simply set your dose times and intervals, calibrate your probes and you're all set. This controller will constantly monitor your reservoir, ensuring that the proper nutrients and pH at all times.

Propagation System

Get Seeding 3-tray

Not only does this propagation system come with lighting, it also comes with heat mats to keep the seedlings at the perfect temperature. These mats use less than 20 watts per square foot and thus are more energy efficient than electric cables and old higher wattage mats, making it the economical way to germinate seeds. This mat will provide uniform heat because it is a continuous sheet heater, not coiled wires imbedded in a mat.
